PRODUCT INFORMATION
SHIELDED GENERATOR CONTAINMENT CABINETS

The Shielded Generator Containment Cabinets are ideal to safely shield generators in a nuclear pharmacy. It is constructed of 0.125" steel and the generator containment area is lined with 0.5" lead on all sides and the top and bottom. The cabinet has two sliding doors on top and is available with or without four heavy duty casters. In addition, the interior of the cabinet is painted and the exterior is covered with stainless steel. As with all of our products, Phillips Safety can design and manufacture a custom shielded generator containment cabinet to meet your exact specifications.

For more options, check out our Nuclear Medicine Shielding and Storage collection.
