PRODUCT INFORMATION
PAPOOSE FLAP EXTENDERS, SET OF 2

The Papoose Flap Extenders, Set of 2 are papoose boards flap extenders suitable for the regular, large, and extra large boards. They are designed to extend the reach of the flap sets for patients that are larger than the board itself. These Phillips Safety flap extenders assure the caregiver that the patient is secure and safe during the medical procedures. In addition to keeping the patient secure, it also provides the medical professional the option to expose portions of the patient for MRI scans. The strap mechanism that works with the papoose board is an excellent system to provide a clean scan for the patient. Since the papoose boards are metal-free, medical professionals can get clean MRI and X-ray scans during the medical diagnostic image process. Please note that these flap extenders come in a set of 2. Purchase additional flap extenders if needed.
