PRODUCT INFORMATION
LEAD LINED WINDOW FRAME

The Lead Lined Window Frame ensures radiation shielding while seamlessly integrating with your window design. Crafted from high-quality 16 gauge cold-rolled steel, compliant with ASTM A 366 standards, this Lead Lined Window Frame boasts exceptional durability and reliability. Its two-piece telescoping jamb/throat design offers adjustable dimensions ranging from 4-1/8" to 6-1/8", catering to various installation requirements with ease.

Designed with practicality in mind, the frame features a 2" face profile with a 1/2" return. It is lined with 1/16" lead, effectively shielding against radiation exposure. Plus, the window frame is coated with a gray primer powder finish, enhancing its resistance to corrosion and wear while seamlessly blending into any decor scheme. In addition, frames come with 5/8" glass stops, shipped loose with screws, and are customizable up to 54" W x 96" H.
