PRODUCT INFORMATION

LEAD ACRYLIC WINDOW SHEET .50MM PB EQ.

Phillips Lead Acrylic Windows combines reliable radiation shielding with exceptional clarity, making it one of the clearest options on the market. With an impressive 87% visual light transmission, these windows provide unobstructed views while maintaining robust protection. Their thickness of 12 ± 0.7 mm offers a lead equivalency of 0.50mm Pb Eq, ensuring they meet stringent safety requirements.

Our Radiation Acrylic Windows are highly customizable and can be cut to any size you need. Standard cuts are held to a precise tolerance of $\pm 1/16$ inch. For added convenience, we ship orders within 2-3 business days.

If you need custom cuts, polished edges, or holes drilled or tapped, please email us at sales-team@phillips-safety.com or visit our Custom Lead Acrylic page to request a quote. These options make our windows a versatile and efficient solution for medical, industrial, and research applications.
